GDE 12 PROFESSIONAL: FURTHER INFORMATION

Product Highlights

The GDE 12 Professional is the optimum cordless dust management system, for your GBH 185-LI Professional, on concrete and masonry. It features a HEPA filter for optimized dust collection, removing 99.97% of dust particles larger than 0.3 micrometers. This dust extraction includes an Auto Power function that automatically turns on when drilling and shuts off two seconds after the drill trigger is released.

Equipment & Application

This device is intended for dust extraction in conjunction with the GBH 185-LI Professional rotary hammers on concrete and masonry.
