GWS 800 PROFESSIONAL: FURTHER INFORMATION

Product Highlights

The GWS 800 Professional is a small angle grinder with a back switch structure that offers excellent protection against dust by reducing dust stacking in the motor housing, significantly reducing maintenance and downtime. Its ergonomic, round shape design and compact slim grip size fit perfectly in the hand palms for comfortable handling and easy control when working. Thanks to its powerful and effective motor with outstanding overload capacity, it manages a very high removal rate even if overloaded.

Equipment & Application

With its reliable performance, the GWS 800 Professional is a proper choice when it comes to working in stone, e.g., for cutting, grinding, and chasing concrete, brick, masonry, stone, and wall as well as for cutting and grinding, metal pipes, seams, surfaces, etc.

Here you will find the right spare parts for your
